

## **Andrea Hans Overcomes Adversity to Achieve Solid Back to Back Finishes at Speedrome**

**CHARLOTTE — June 4, 2010 —** Team Full Throttle (TFT) development driver, Andrea Hans, raced her No. 11 Legends car to two solid back-to-back finishes on Friday and Saturday, May 28 and 29 at Speedrome (IN). The young driver finished out the weekend with a 9th place finish on Friday and a 14th during the national qualifier on Saturday.

On Friday Hans and her team were confused by why the car was running nearly six tenths off her normal time at Speedrome. Even with the solid finish on Friday, the team still thought something was amiss. After the heat race on Saturday is when they discovered that there was a leak in the car's rear axle housing. "We changed the housing," said Hans, "and the car was so awesome."

"On Friday the racing was calm, but Saturday racing was a lot more aggressive because it was a national qualifier," said Hans. "There was a lot of rubbing and at one point I had to come into the pits to change a flat tire because of too much contact. That put me at the back of the field. I gradually made my way back up to 5th, dodging most wrecks. But, a car two cars ahead of me spun and the track officials blamed me. That put me at the back of the pack yet again and I simply ran out of time."

"I learned this weekend that the race cannot be won within the first lap," said Hans. "Even so, every second I'm in my car is fun, no matter what happens on the track. I just love it!"

Hans will race again this weekend at Speedrome tonight and on Saturday, June 5 Hans will race at Anderson Indiana.
